CYCLE FAILURES

Campaign	Closed	Window	Cycles	Failures	Faults	Distinctive result
7-Day Continuous	Jul 2026	7 days	60,448	0	6/6	100% uptime; 8/8 checks
15-Day Continuous	Jul 2026	15 days	1,295,409	0	14/14	1 ms P95; no memory creep
30-Day Production	Jul 2026	30 days	518,336	0	29/29	99.99% uptime; 3 ms P95
24-Hour Hybrid	20 Jul 2026	24 hours	288	0	10/10	Live rotation; 2/2 partitions
72-Hour Triple-Hybrid	25 Jul 2026	72 hours	543	0	19/19	15/15 gates; 6 partials refused

SCOPE AND INTERPRETATION

These documents report internal adversarial software and infrastructure testing. They support audit scoping and demonstrate recorded endurance, recovery and cryptographic-continuity properties. They do not establish external certification, production certification, flight qualification or completion of the independent third-party security audit.
